

I wish this letter a fortunate journey, until in your hands.

<sup>1</sup> Dear children Johannes and Renate Dyck and you nine dear grandchildren. Be greeted by us all first of all, with a kiss of heartfelt love, from all of us. Yes, our dear heavenly Father grant that these lines find you alive and in good health, as we depend (on Him) for the same, because we are thank God all quite well. What will I write to you loved ones, many things are deeply covered with much snow and my head and pen do not want to work like in former times, like those 30 years ago. (There) is too much besides, which forces down an old person, so that one becomes at times so tired of life and one wants to know nothing more of the world. Nothing helps – only (going) forward:

I want to strive for a life

Where I am blessed.

I will struggle to force myself through

Until I win it.

If they hold me, I run away,

If I am weary, then the Word calls me:

"I've gone on, I've forced myself through,

Until I reach the jewel. - <sup>2</sup>

We received letter № 8, with the picture of the house and car, on December 31 in the evening. The next one had my birthday card and the congratulations for my birthday, and it arrived January 23, I do not know the number. Peter took it today to Helene, who is still sitting at home, is also curious, (she) had also not come on my birthday. A breast (of hers) was pulled / torn together, (she) has had to endure much from it, now it is broken open (opened), which afforded her relief. Katharina<sup>3</sup> and Heinrich Isaak<sup>4</sup>, Anna and Katharina Horn<sup>5</sup>, Gerhard Wall wife and daughter Helene, Schmidt aunts, neighbor Jakob Schmidt and wife<sup>6</sup> of brother-in-law were at the birthday (celebration).

Franz Wall, David Wall<sup>7</sup> and wife<sup>8</sup>, Franz Mathies, whose wife is ill, Nikolai Wall with wife, Heinrich Schmidt with wife, Jacob Esau<sup>9</sup>, Gerhard Esau<sup>10</sup>, Renate<sup>11</sup>, Wilhelm Philipsen, Johann Franz Wall Orloff's son Heinrich, Gustav Wall and wife. They were all pretty much represented, only from Johannes Dyck<sup>12</sup> was no one and the dear children with their poems were very much missed.

Helene said, the Dycks were mentioned a lot, this was my first [birthday] where you dear ones were not there. Perhaps it is also the last, because the time is approaching. The 77 years are full, perhaps the last year of grace for me, because our life lasts seventy years and if it is high, it will be eighty years. And when it has been precious, it has been effort and work.

On January 7 Peter Dyck<sup>13</sup>, teacher in Lysanderhöh died, was laid to rest on January 14 in Lysanderhöh churchyard and awaits the joyful resurrection morning. On 9 January Johann Schmidt's<sup>14</sup> wife<sup>15</sup> Hohendorf, daughter of the late Aron Fröse Orloff, died after much suffering and was buried on 14 January. On the day of the funeral, in the morning, (her daughter) a girl<sup>16</sup> of two and a half years died, was put with the mother the next day in the coffin and buried together in a grave and await the resurrection morning. Before Christmas was a brotherhood (meeting?) in the church in Orloff, it was decided to elect an elder and deacon, because Ohm Peter Wiens<sup>17</sup> is old and can no longer do everything. And the dear elder Cornelius Nickel died years (ago?), also to elect four new preachers. Julius Siebert<sup>18</sup> in Ostenfeld is elected elder and Abraham P. Bergmann<sup>19</sup> is elected third, both are already appointed as preacher by elder Wiens. Many candidates were elected (nominated), votes very scattered, voted for the second time. Alexander Quiring<sup>20</sup> Köppenthal, with 109 votes is preacher, but has not yet given his consent. Jonas Quiring Medemthal<sup>21</sup>,

Page 3 (54 right)

son of the late Cornelius Quiring from here, with 67 votes, has consented. Artur Dietrich Töws<sup>22</sup> Lysanderhöh, with 70 votes, has not immediately consented in the church. Now from Heinrich Schmidt<sup>23</sup> (we) learned, (he) has accepted. Gustav Gustav Töws<sup>24</sup> Hohendorf, neighbor Gustav Töws' son, with 125 votes, immediately accepted in the church. The rest, Herbert Penner<sup>25</sup> Fresenheim had 63 votes, Abraham Philipsen 49 votes, Julius Wiens<sup>26</sup> 45, Yes. Siebert<sup>27</sup> Ostenfeld, 61 votes, has just celebrated (his) wedding with Joh. Fröse's<sup>28</sup> daughter Lieschen<sup>29</sup>. Of the four elected, (there are some) very young men and it is a very difficult position. In general, at the present time, when un-belief is taking deeper and deeper root and dragging everything with it into ruin. I have often heard talk about your Gustav Fröse's<sup>30</sup> letters from America, which must not be (speaking) of the best, namely a piece that strikes me so. He is said to have written that on a daily wage, he had to lie on the barn floor in the hay at night, in 20 degree cold, while threshing. All night his feet did not get warm. (Had to) walk around in the deep snow during the day and

no warm room at night, seems to me almost unbelievable, would not happen here in the Soviet Russia, the Cosein<sup>31</sup> would be put out soon and with you in America the workers must be treated nevertheless like a raw egg. Your climate is also cold. How is it, do the people, like here, wear everything with felt shoes and felt boots in winter and furs, or not?

We have here also a more severe winter than has been for a few years. The frost has eased a little for 8 days, so it is bearable in our warm room, but it is snowing a lot, there is no proper path any more. So narrow, the horses, when two are driving, want to push each other and for one (horse) the way is too difficult, but they have to be driven now, they want to have the last wheat from the barns<sup>32</sup> and attics. The farmer is supposed to weigh out the seed, which he

Page 4 (55)

he needs. As to grinding, I do not know exactly yet, they say à Seele, à month 1 pud wheat only may be ground. The flour trade is stumpf<sup>33</sup> eingestellt<sup>34</sup>. Whoever still has some, the rest is all supposed to be taken away. Not much more will remain here with us, we had a weak harvest, now we have to return 126 poods from 1922, when we received seed<sup>35</sup>, and on top of that we have to return 50 puds of wheat from the previous harvest. In the Sowjet they still need forbearance / indulgence, otherwise we would have had to give sowed wheat, 5 pud from each desjatine sown with wheat. 10 kulaks in lower villages were supposed to give everything, they wanted to take (their) last pants off. In some respects, those who sowed less are better off than those of us who sowed and produced more. The local Soviet (attempting to meet the quotas set by the Moscow government) cancelled its demands for grain from those who produced little, while transferring their obligations for grain to us who produced more. Is it not difficult for us when this happens?

E.g. friend Wilhelm Philipsen and his son Johannes have voting rights, no kulak, sold a bull for 180 rubles. 2 cows going to Moscow are to [bring] 500 rubles, a black 3-year-old gelding sold for 260 rubles, they are doing very much better in the Taurian<sup>36</sup> than us, and earlier they had borrowed money from me and now wird auf uns immer geritten (we are always being ridden). As one hears, they have bought 42 cows, which are to go to Moscow. Heinrich Isaac<sup>37</sup> also sold 2 cows for 450 rubles, he is also lucky. He also has his guilt, we would have also gladly sold a few, had given too little milk, he also can not feed, not like this and still in the summer, if it comes, the far tread through the country divide, bad pasture, Schitnak (harvested acres) becomes hard, it cannot (be) that our cows are so much worse than those of the others, I do not believe. And when inscribing the milk, a lot can also be done (fudged), but silence and thinking do not offend anyone. Yesterday, January 23, I sent two letters through the mail to Aliata, to Cornelius and Peter Wall, they also wanted to have your address from America and quite encouraged (by me), they should write as soon as possible to you dear and also often. Now let's wait and see how it will turn out, then you will receive so many

Page 5 (57)

letters that you will say at last, already another letter. Well, I have no time to read, because the American is busy and keeps on working, time is money, because if I count together all your friends here, dear ones, and everyone writes as much as I do, a lot of letters should reach you, right? I am only getting too indifferent about writing badly and putting together incomplete (sentences), caused by my 77 years, which I have

wandered through. Yes one more thing, the other day I had written about daughter Helene's<sup>38</sup> prince<sup>39</sup>, still without

name, now he has one, but not the right one. I wanted him to be called Jacob, but the old Esau<sup>40</sup> was crazy that he should be called Peter Gerhardowisch and it has become so. The other day on my birthday Katharina<sup>41</sup> and Heinrich Isaak<sup>42</sup> stayed with us for the night. Tine had visited Helene and the other day they were at Aunt Horn's<sup>43</sup> for lunch, Heinrich had gone to Philipsen, arrived shortly before noon. His mother is also sickly, so I went with Heinrich to Horn's, and Aunt Horn told me that she remembered very well when a Peter<sup>44</sup> was born at Mathiesen's in Kriefkohl. I said to her, just don't be so altnasig<sup>45</sup>, they are both old already, 77 years. We counted however, and it's correct that she is still 8 years older, can well imagine<sup>46</sup> from my birth. Aunt Horn will soon be 86 years, very lively. She can still converse very well, only a pity that she is so hard of hearing and cannot walk. (They) have also had bad luck: a cow was sick, vet said - will not get better, lung disease. Slaughtered it, meat could not be used at all, had insured higher, 85 rubles. Leather, I think, 14 rubles. The day I was there with the Isaacs, a beautiful cow calf (born in) spring, was sick, also died, beautiful big calf. We already have 3 cows fresh milk and the 4th showed the uterus<sup>47</sup> and pushed out the bladder. The veterinarian had to take the calf from her, (it) has attacked her nevertheless very well (nursing)

Page 6 (56)

in spite of the feed gives very little milk, will become good only for the butcher, is well fed, (will) look at it again, was lucky, (had) 3 cow calves from it. 2 pretty weißbles<sup>48</sup>, ears and around the eyes black. A black mare, 5 years old, we sold to Voskresensk Russians, for cheap, 160 rubles, but one must have money, February 1 is coming soon. There are again a bride and groom, deceased D. Wall's son David<sup>49</sup> Fresenheim is marrying Johann Unger's daughter<sup>50</sup> in Ostfeld. Gerhard Wallen<sup>51</sup>'s son Heinrich<sup>52</sup> Medemthal is marrying Johann Fröse's<sup>53</sup> daughter<sup>54</sup> from Lindenau who has been landlady with Johannes Neufeld for seven years. The elder Cornelius Nickel's son is said to marry Heinrich Fröse's daughter from there. It must not be very difficult for Hermann Nickel, (to mourn) his father, otherwise he would still be waiting, must be a light bird.

Renate, you write in your letter, the wife of the elder D. Töws<sup>55</sup> is the Abraham Friesen's<sup>56</sup> daughter<sup>57</sup>, (that) was interesting to me. Hopefully from Friesen his second wife Regieren (family Regier?)

Mama has something and Maria has a lot of work, milking, spinning, calf watering, austereen (making things proper?), patching. She also spins already. I said, put the spinning wheel aside and write instead. We have a maid for 1 month, for 6 rubles, has been here the second month. She is still young, but hardworking, I like her better than (the one) we already had. My paper is coming to an end, will have to close, is also enough. To you, dear Renate<sup>62</sup>, I congratulate very much on your birthday and wish you good luck in the new year and God's rich blessing. Now in conclusion, are cordial greetings from Mama, Peter<sup>63</sup>, Maria, which I join. I remain at a far distance, your father and grandfather Peter Mathies, who loves you very much.
